\*Accelerated Death Benefit option is a feature that is made available to group life insurance participants. It is not a health, nursing home, or long-term care insurance benefit and is not designed to eliminate the need for those types of insurance coverage. The death benefit is reduced by the amount of the accelerated death benefit paid. There is no administrative fee to accelerate benefits. Receipt of accelerated death benefits may affect eligibility for public assistance and may be taxable. The federal income tax treatment of payments made under this rider depends upon whether the insured is the recipient of the benefits and is considered "terminally ill" or "chronically ill." You may wish to seek professional tax advice before exercising this option.

Important Notice: The acceleration of life insurance benefits offered under this certificate is intended to qualify for favorable tax treatment under the Internal Revenue Code of 1986 (under IRC Section 101(g)). If the acceleration of life insurance benefits qualifies for such favorable treatment, the benefits will be excludable from your income and not subject to federal taxation. Tax laws relating to acceleration of life benefits are complex. You are advised to consult with a qualified tax advisor about circumstances under which you could receive acceleration of life insurance benefits that are excludable from income under federal law.

Receipt of accelerated benefits may be taxable and assistance should be sought from a personal tax advisor.
